Profile

Information Science and Engineering graduate with a strong interest in Data Science, Artificial Intelligence, and software development. Gained practical exposure to Android development, Generative AI, and web technologies through academic projects and internship experience. Motivated to pursue advanced studies in Data Science and Artificial Intelligence to strengthen my technical, analytical, and problem-solving skills and build a career in AI and data-driven technologies.

Education

B.E. - Information Science and Engineering, S.J.C. Institute of Technology — **July 2026**
Visvesvaraya Technological University — CGPA: **8.47**
PUC - Science, RK Vision PU College — **88.30%** (April 2022)
SSLC - RK Vision English Medium High School — **93.60%** (July 2020)

Skills

Programming: Python, Java, SQL
Web Development: HTML, CSS, JavaScript
Database: MongoDB
Android: Kotlin, Android Studio, Jetpack Compose
Tools & Technologies: Firebase, Generative AI, MS Office, Tableau, Power BI

Internship Experience

Android App Development using Generative AI Intern

MindMatrix (CL Infotech Pvt. Ltd.) | Feb 2026 – May 2026

- Developed Android applications using Kotlin, Android Studio, and Jetpack Compose.
- Worked with Firebase and Generative AI tools.
- Developed Kutira-Kushala, an Android application supporting self-employed and cottage-industry entrepreneurs.

Projects

AI Mock Interview with Resume Building & Resume Analyzer

- Developed an AI-driven platform to simulate mock interviews based on users' resumes using natural language processing and GPT-based models.
- Integrated resume parsing, keyword analysis, and ATS compatibility scoring for real-time feedback and optimization tips.
- Designed to help students and job seekers improve interview confidence and resume effectiveness across various domains.

Health Data Information Management System

- Built a secure web platform to manage patient records, appointments, and basic health analytics.
- Enabled patients to view health data and schedule appointments with role-based access.
- Developed using the MERN stack with a focus on usability and efficiency.

Achievements

- Participated in hackathons and technical activities, strengthening problem-solving, teamwork, and innovation skills.
